THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT 50 U.S.C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. Within the scope of the third SED statute, which appeared in Neues Deutschland several weeks before the Fourth Party Convention, the first mention was made of the establishment of so-called "Bueros" in the SED Bezirk, Stadt, and Kreis Directorates.

2. The text of the passage concerning these Bueros was as follows:
"The Bezirk Directorate will elect to the Buero nine to eleven members and three to five alternates (Kandidaten) and from the members of the Buero, pursuant to instructions from the Central Committee, will elect the Secretaries. The Central Committee is to confirm the Secretaries, who must have been Party members for at least five years. The Buero will meet at least once a week and will report regularly to the Plenary Meeting of the Bezirk Directorate on its resolutions and its activities.
The Stadt or Kreis Directorates will elect to the Buero seven to nine members and two or three alternates and from the members of the Buero, pursuant to instructions from the Central Committee, will elect the Secretaries. The first Secretary of the Stadt or Kreis Directorate will be confirmed by the Central Committee; the other members, by the Bezirk Directorate. The Secretaries must have been Party members for at least three years. The Buero will meet at least once a week and will report regularly to the Plenary Meeting of the Stadt or Kreis Directorate on its resolutions and its activities." 25X1

3. In his report at the Fourth Party Convention, "Ueber die Abaenderungen am Statut der SED", Karl Schirdewan, member of the Politbuero and of the Secretariat, justified the setting-up of these Bueros and explained that the former set-up of the Secretariat had not guaranteed that all responsible functionaries of the most important points of concentration in the various areas would take a responsible part in the work of theParty. The setting-up of the Bueros was necessary for a "strengthening of the collectivity of the directorates", for the overcoming of departmental assignment of work, for the overcoming of bureaucracy and of the taking-over by the Secretariat of administrative functions. According to Schirdewan, resolutions could only be made through these Bueros. The Secretaries, members of the Buero, are to be freed of all other work and are to devote themselves especially to the following tasks:

a. Organizing the fulfillment of the resolutions of the Buero; rigid control of the Apparate of the respective leading Party organs (Bezirk, Stadt, or Kreis Directorates).

b. Guaranteeing of the organizing of the choice, education, and assignment of the cadre.

c. Precise preparations for the meetings of the Bueros; preparations of resolutions and materials.

4. With the founding of the Bueros, the so-called Grosse Sekretariate (Land and Kreis Secretariats, in existence until 1949) have been newly established in a somewhat altered form. The Bezirk, Stadt, and Kreis Bueros correspond to the central Politbuero; the Secretariats of the Bezirk, Stadt, and Kreis Directorates must be compared to the Secretariat of the Central Committee. In this light, the Bueros are the actual political policy organs (Fuehrungsorgane) on the various levels, while the Secretariats are, as the decisive Apparat-implementing offices (Apparatinstanzen), responsible for the practical work, especially that concerning internal Party affairs.

5. The political significance of these newly established organs lies in the fact that the work of the Bueros will allegedly guarantee a closer collaboration of the SED with functionaries of the State Apparat, of the State Security Service, and of the most important mass organizations (FDJ and FDGB) as well as with Party functionaries, especially in the most vital industrial enterprises and in the most important economic institutions.
